

I SAID

Chorus

I said, you said, we said, Get in your head

He said, she said, they said, Get in your head

Just be inside that head of yours, with golden suns inside it pours

That place inside, that you go, to see how much you really know

Chorus

When I can't find that space of mine, and I forgot that I'm divine

I find that quiet place within, & then I do it all over again.

Chorus
