

## PUT UP A ROSE

Put up a rose,      cos everybody knows  
Running all the energy,      from head to your toes

Put up a rose,      cos everybody knows  
That when you get stuck,      it helps you unfroze

Put up a rose,      cos everybody knows  
Bring in a gold sun,      til all of you glows

Put up a rose,      cos everybody knows  
You blow that rose,      and karma goes

Put up a rose,      cos everybody knows  
That when you're all done,      there's lots of fun
